

LEWIS MURIUKI WERU

Full-Stack & Mobile Developer — React · Next.js · React Native · Node.js

Nairobi, Kenya | +254 727 814 888 | lewisweru.uu@gmail.com | Portfolio | GitHub | LinkedIn

Full-stack and mobile developer and founder of **Websiteskenya**, through which I have designed, built, and deployed **100+ live websites and 3 mobile apps** for businesses across Kenya. I ship production-grade apps with React, Next.js, and Node, and cross-platform mobile apps with React Native/Expo to the App Store and Play Store. Specialist in real payment integrations — **M-Pesa (Daraja), Pesapal, and Paystack** — and in building genuine systems (inventory reconciliation, e-commerce, AI-assisted apps), not just static sites. B.Sc. Computer Science graduate open to full-stack, frontend, and mobile roles, including remote.
